

## **New WCA website launched April 22 2010!! (Forum Topic Title)**

A new website for the Wilderness Canoe Association has just been launched. It is the result of many months of work by several volunteers, led by Marilyn Sprissler and Aleks Gusev. Excellent development work was provided by the CERAI T Team, an Information and Technology consulting firm.

The new website features a contemporary design, offers a lot of interactivity, and is driven by a powerful back-end open-source platform which allows for possible future enhancements. Here are a few of the highlights of the new site:

- Interactive Outings section – WCA members can both sign up for trips & submit new trips online
- Automated email notification – WCA members can sign up & receive email notifications when new events & outings are posted.
- Bulletin Board – WCA members can submit new BB posts online.
- Special Events Registration & Payment
- Online Membership Renewal & Payment.
- Online New Member Registration & Payment - it's never been easier to join the WCA!!!

We are excited about our new site & are very proud of it!! Please come & have a look:
